

## We Are Vikint

Vikint is a dynamic, mission-focused team dedicated to enterprise operations optimization, integrating evolving technologies into business and technical operations and new initiatives that elevate organizational performance and outcomes. We help federal and commercial organizations enhance tools, streamline processes, strengthen culture, and boost productivity in an approach that is grounded in excellence, agility, and trust. Our work enables organizations to operate with greater clarity, speed, and impact in an increasingly complex environment.

## Primary Services Areas

We build intelligent organizations by integrating optimized processes, digital tools, accountable program execution, and communication frameworks which drive productivity, accountability, and transparent operations to elevate performance and overall outcomes.

**GSA Schedule**

**Contract #:**

47QRAA25D006J

**Period of Performance:**

3/11/2025 - 3/10/2030

## Experience & Past Performance

VIKINT's primary work with the federal government and commercial organizations has built a strong foundation of expertise across our core competencies. Our team has successfully driven agency-wide digital transformation initiatives, delivered integrated portfolio, program, project, and product management, and designed and implemented real-time web and data management solutions. We have also developed reporting and optimization tools leveraging industry-leading platforms such as Microsoft 365 Power Applications and SharePoint, helping clients improve efficiency, transparency, and overall operational performance.
